Replacement Procedures

IntraSSL Service Manual

This manual is intended for users who have already been using IntraSSL services.

Need to be Run as Administrator :

This reinstallation requires Administrator privileges for installing IntraSSL applications.

Install an Antivirus Software:

Please make sure you have an Antivirus Software installed on PC. Otherwise, you will receive an access denied error. (e.g "Access denied by Security page check")

IntraSSL (VPN) Connection Process:

This Manual contains the process until when to connect IntraSSL [Virtual Private Network (VPN)].

Once you have finished setting that up, your VPN connection is ready to work.

Please kindly confirm whether you are able to use the published application via IntraSSL.

The supported OS,browser version of the IntraSSL service is as follows:

https://www.d-cruise.jp/service/network/intra/ssl/en/os_en.html

FAQ

(1) What can I do when I cannot connect to Intra SSL at STEP3?

- 1. Intra SSL Service page doesn't appear on screen.
 - Please check the URL of Intra-SSL Service Page is correct.

https://g-ssl5.d-cruise.jp/

2. Whenever I entered Username and Password at Intra SSL Service Page, 'Invalid Username or Password' message pops up on the screen.

Username or Password you entered may be incorrect. Please enter Username and Temporary Password described in *Intra SSL Application Username (Registration).* If it is not your first try to connect to Intra SSL, enter your new Password.

If you forgot your Password, please contact the help desk depicted in page 2.

3. When installing Intra SSL, the message dialog remains on the screen and freezes.

Please consult STEP 1 found in Installation Manual again.

4. Whenever installing or booting, the following security alert appears on screen.
